

ON-SITE MANAGED SERVICES // ADDITIVE MANUFACTURING EQUIPMENT

FATHOM offers specialized managed equipment solutions that augment a company's in-house digital fabrication operations. This comprehensive and customizable staffing approach accelerates implementation, streamlines workflow, and decreases downtime.

By leveraging on-site managed services with FATHOM, organizations fully realize the benefits of equipment ownership without having to dedicate internal resources to hands-on operations.

CUSTOMIZABLE PROGRAMS INCLUDE

- Highly Trained Staff
- Order Intake & Management
- Inventory & Production Management
- Pre- to Post-Processing Operations
- Full-Time & Part-Time Support
- Preventive Maintenance
- Operation of Other Basic Shop Tools/Equipment
- Basic CAD Support

Additional support options are available—each managed service plan is customized to fit the unique production needs of a company for the best results.
