

FATHOM. // TOOLING+

TOOLING & INJECTION MOLDING SERVICES—PROTOTYPE & PRODUCTION PARTS

FATHOM and Precision Plastics have come together to form **The FATHOM Tooling+ Team**, building on more than eight decades of tooling and injection molding experience. We offer a single-source global solution that supports any size company's low to high-volume molding needs. In-house experts working side-by-side are improving the injection mold business model—accelerating the quoting process, as well as including DFM (design for manufacturing) overview with every initial quote.

- Built on 80+ Years of Molding Experience
- Rapid & Mass Production Tooling
- Injection Molding, Multi-Shot Molding, Insert Molding, Structural Foam Molding
- Post-Processing—Assembly & Decoration
- 24 to 48 Hours Quote Turnaround
- DFM Guidance Included with Every Initial Quote
- 24/7 Project Management Team Support & Facility Operations
- Global Network of Facilities—West Coast, East Coast, Asia

Our experts take a comprehensive approach that builds on FATHOM's all-encompassing advanced manufacturing services that enhance and accelerate today's product development process.
